The image consists of six identical horizontal rows, each containing a series of rectangular frames. Each frame is defined by a thin black border and contains a single, dark, vertical bar positioned near the right edge. The rows are evenly spaced and extend across the width of the image.

A diagram showing a 4x4 grid of colored cells. The grid consists of four rows and four columns. The colors of the cells are as follows:

- Row 1: Black (Column 1), White (Column 2), Teal (Column 3), Blue (Column 4)
- Row 2: Blue (Column 1), Black (Column 2), Blue (Column 3), Blue (Column 4)
- Row 3: Teal (Column 1), Teal (Column 2), Teal (Column 3), Teal (Column 4)
- Row 4: Blue (Column 1), White (Column 2), Teal (Column 3), Teal (Column 4)

The numbers inside the cells are:

- (Row 1, Column 3) contains the number 16
- (Row 2, Column 4) contains the number 5
- (Row 2, Column 4) contains the number 4
- (Row 3, Column 1) contains the number 8
- (Row 3, Column 2) contains the number 13
- (Row 3, Column 3) contains the number 14

A 2x3 grid of colored boxes containing numbers. The top row contains a blue box with '9' and a teal box with '10'. The bottom row contains two orange boxes, each with '10', and one light gray box with '11'.

1

A 2x2 grid of four numbered boxes. The top-left box contains the number 2, the top-right box contains 1, the bottom-left box contains 3, and the bottom-right box contains 6.

The diagram consists of four horizontal rectangles arranged vertically. From top to bottom: a green rectangle labeled '4' in black; a black rectangle; a teal rectangle labeled '17' in black; and an orange rectangle labeled '14' in black. To the right of the orange rectangle is a vertical grey bar with a series of horizontal slots, the fourth of which contains the number '5' in black.

A bar chart with four vertical bars. The first three bars are teal, and the fourth bar is red. The values are labeled on the bars: 11, 15, 12, and 1 respectively. The bars are positioned side-by-side.
